This report is for the exclusive use of Intertek's Client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this report. Only the Client is authorized to permit copying or distribution of this report and then only in its entirety. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test results in this report are relevant only to the sample tested. This report by itself does not imply that the material, product, or service is or has ever been under an Intertek certification program.

LISTING INFORMATION

CSA Z240 MH Series* Manufactured Homes

The manufactured homes are transportable, single or multiple-section, one-storey dwellings that are ready for occupancy on completion of set-up in accordance with the manufacturer's installation instructions. The setup may include mating of multiple section homes, painting, and installation of floor finishes, cabinetry, final light fixtures, solid fuel-fired appliances, gas appliances and systems, chimneys and flues.

The manufactured homes are constructed at Chantiers Chibougamau Ltd dba. Nordic Structures facility located in (Chibougamau, QC), and transported on their own running gear to the intended dwelling site. The units are equipped with all normal facilities to connect to municipal plumbing, gas and electrical services.

The certification does not cover portions of buildings or services that are not completed in the factory, site connections to municipal services, and transport of buildings or their erection at the building site.

The Intertek mark warrants an approved factory quality program and is intended to provide a means of verifying that the prefabricated portion of a building, module, or panel, which may include factory-installed structural, plumbing, heating, and electrical systems, has been designed and built to meet or exceed the requirements of the appropriate building code or standards.

APPLICABLE STANDARDS
